

**REGULAR MEETING of the
Legislative & Regulatory Committee of the
Clean Power Alliance of Southern California**

Wednesday, November 28, 2018

10:00 a.m.

555 W. 5th Street, 35th Floor

Los Angeles, CA 90013

Meetings are accessible to people with disabilities. Individuals who need special assistance or a disability-related modification or accommodation to participate in this meeting, or who have a disability and wish to request an alternative format for the meeting materials, should contact Jacquelyn Betha, at least two (2) working days before the meeting at jbetha@cleanpoweralliance.org or (213) 269-5870, ext.1001. Notification in advance of the meeting will enable us to make reasonable arrangements to ensure accessibility to this meeting and the materials related to it.

Members of the public may also participate in this meeting remotely at the following addresses:

*Carson City Hall
Executive Conference Room
701 E. Carson Street, Carson, CA 90745*

*West Hollywood City Hall
3rd Floor, City Manager's Conference Room
8300 Santa Monica Blvd, West Hollywood, CA 90069*

*Redondo Beach City Hall
West Wing Conference Room
415 Diamond Street, Redondo Beach, CA 90277*

I. WELCOME & ROLL CALL

II. PUBLIC COMMENT

This item is reserved for persons wishing to address the Committee on any Clean Power Alliance-related matters not on today's agenda. Public comments on matters on today's agenda shall be heard at the time the matter is called. As with all public comment, members of the public who wish to address the Committee are requested to complete a speaker's slip. If you have anything that you wish to be distributed to the Committee and included in the official record, please hand it to a member of the staff who will distribute the information to the Committee members and staff. Speakers are customarily limited to three minutes, but is at the discretion of the Committee Chair.

III. CLOSED SESSION

1. CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION
Initiation of litigation pursuant to paragraph (4) of subdivision (d) of Government Code Section 54956.9: (1)

IV. REGULAR AGENDA

1. Approve Minutes from October 24, 2018 Legislative & Regulatory Committee Meeting
2. Discuss Legislative & Regulatory Principles for Clean Power Alliance
3. Review Letter to Governor-elect Gavin Newsom

V. COMMITTEE MEMBER COMMENTS

VI. ADJOURN

Public records that relate to any item on the open session agenda for a regular Meeting are available for public inspection. Those records that are distributed less than 72 hours prior to the meeting are available for public inspection at the same time they are distributed to all, or a majority of, the members of the Committee. The Board of Directors has designated Clean Power Alliance, 555 W. 5th Street, 35th Floor, Los Angeles, CA 90013, for making those public records available for inspection. The documents are also available online at

www.cleanpoweralliance.org.

MEETING of the Legislative & Regulatory Committee
of the Clean Power Alliance of Southern California
Wednesday, October 24, 2018, 10:00 a.m.
555 W. 5th Street, 35th Floor
Los Angeles, CA 90013

*Carson City Hall Executive Conference Room
701 E. Carson Street, Carson, CA 90745*

*West Hollywood City Hall - 3rd Floor, City Manager's Conference Room
8300 Santa Monica Blvd, West Hollywood, CA 90069*

*Redondo Beach City Hall West Wing Conference Room
415 Diamond Street, Redondo Beach, CA 90277*

MINUTES

I. WELCOME & ROLL CALL

Committee Chair Lindsey Horvath called the meeting to order.
Board Secretary Jacquelyn Betha conducted roll call.

Roll Call				
1	Carson	Reata Kulcsar	Alternate Committee Member	Present
2	Redondo Beach	Christian Horvath		Present
3	Santa Monica			Absent
4	West Hollywood	Lindsey Horvath	Committee Chair	Present

II. PUBLIC COMMENT

There were no public comments.

III. CLOSED SESSION

1. CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION
Initiation of litigation pursuant to paragraph (4) of subdivision (d) of
Government Code Section 54956.9: (1)

Nancy Whang, General Counsel, reported that no action was taken
during Closed Session.

IV. REGULAR AGENDA

2. Approved Minutes from May 23, 2018 Legislative & Regulatory Committee Meeting

Motion: Redondo Beach, Committee Member Horvath; Second: Carson, Committee Alternate Kulcsar. Vote: Item 2 was approved by a unanimous roll call vote.

3. Discuss Legislative & Regulatory Principles for Clean Power Alliance

Item 3 was deferred until the next Legislative and Regulatory Committee Meeting.

V. COMMITTEE MEMBER COMMENTS

There were no Committee Member comments.

VI. ADJOURN

Staff Report – Agenda Item 2

To: Clean Power Alliance (CPA) Legislative & Regulatory Committee
From: Ted Bardacke, Executive Director
Subject: CPA Legislative and Regulatory Policy Platform
Date: November 28, 2018

STAFF RECOMMENDATION

Discuss Executive Committee feedback and approve the 2019 CPA Legislative and Regulatory Policy Platform.

PROPOSED POLICY PLATFORM

Over the past several months CPA's Legislative & Regulatory Committee has discussed and refined a Legislative and Regulatory Policy Platform to serve as a framework for CPA's advocacy and policy efforts. The Executive Committee reviewed the platform at its meeting on November 8 and suggested refinements to the second proposed policy principle, which is reflected below and in the attached Policy Platform. Staff is requesting that the Legislative & Regulatory Committee discuss feedback received from the Executive Committee, and make any further adjustments, if needed, so that the platform can be discussed and considered for approval by the Board of Directors at its upcoming meeting on December 13.

The proposed Legislative and Regulatory Policy Platform is centered around four basic principles:

- 1) Protecting CPA's local control and autonomy by its members, especially with regards to finances and power procurement.
- 2) Ensuring fair treatment of CPA customers by the CPUC and other state agencies.

- 3) Supporting performance-based benchmarks for ratepayer advocacy and social justice.
- 4) Pursuing environmental initiatives that exceed prescriptive State mandates, promote the growth in renewable energy capacity at the local level, and reduce fossil fuel dependency.

Having a Board-approved platform will allow both Board members and staff to pursue actions at the legislative and regulatory levels in a consistent manner and with the understanding that they are pursuing actions in the best interest of the organization and its mission, its member agencies, and its customers. The platform will also enable the organization to move swiftly to respond to events in Sacramento (Legislative/Executive) and San Francisco (California Public Utilities Commission) and provides firm guidance to the Executive Director on what positions should be taken on legislative and regulatory matters that come before the CalCCA Board of Directors. Except under the circumstances approved by the Board on June 7, 2018 when the Chair, Vice-Chairs, the Legislative & Regulatory Committee Chair, and the Executive Director could act on behalf of the organization, all CPA positions on individual bills would still be presented to the full Board for approval.

In addition, the Committee has discussed the importance of establishing a platform before the new Governor takes office, so that the organization can be articulating a clear and consistent message with the new administration and its appointees as they prepare to take office.

The proposed Legislative and Regulatory Policy Platform was developed with an eye towards consistency with CalCCA's legislative and regulatory principles, with modifications that differentiate CPA from the issues affecting CCAs in PG&E territory and are responsive to our customer base and member agency priorities. Staff is now assessing the proposed platform against some specific legislative and regulatory initiatives being considered by CalCCA. These potential initiatives include:

- Fixes to the PCIA to promote better IOU portfolio management and reduce costs to all customers
- Transparency and modernization of IOU data management to put CCAs on a level playing field
- Creation of a “next level” CCA – Community-Owned Utility that could be free from most CPUC oversight.
- Measures to ensure that CCA’s get proper credit for their investments in energy storage, electric vehicle initiatives and other electrification and GHG reduction initiatives.

By and large, these specific CalCCA initiatives align with the proposed policy platform. However, they lack a specific emphasis on low-income customers and DACs that is contained in principle number 3; with 24% of our residential customers on low-income programs and our service territory containing 16% of all DACs in the State of California, staff will ensure that their advocacy maintains a special focus on these customers and communities.

Attachments: 1) Proposed Legislative and Regulatory Policy Platform
2) Protocol on Urgent Legislative and Regulatory Matters
(Approved June 7, 2018)

2019 Legislative and Regulatory Policy Platform

Adopted XX

Overview and Purpose

The Clean Power Alliance (CPA) Legislative and Regulatory Policy Platform serves as a guide to the CPA Board of Directors and CPA staff in their advocacy efforts and engagement on policy matters of interest to CPA. The Platform allows both Board members and staff to pursue actions at the legislative and regulatory levels in a consistent manner and with the understanding that they are pursuing actions in the best interest of the organization and its mission, its member agencies, and its customers. The Platform will also enable the organization to move swiftly to respond to events in Sacramento (Legislative / Executive) and San Francisco (California Public Utilities Commission). The Platform also provides firm guidance to the Executive Director on what positions should be taken on legislative and regulatory matters that come before the California Community Choice Association (CalCCA) Board of Directors.

Except under the circumstances approved by the CPA Board on June 7, 2018, when the Chair, Vice-Chairs, Legislative & Regulatory Committee Chair, and Executive Director may act on behalf of the organization, all CPA positions on individual bills will be presented to the full Board for approval.

Policy Principles

The Legislative and Regulatory Policy Platform is centered around four basic principles:

1. Protecting CPA's local control and autonomy by its members, especially with regards to finances and power procurement.
2. Ensuring fair treatment of CPA customers by the CPUC and other state agencies.
3. Supporting performance-based benchmarks for ratepayer advocacy and social justice.
4. Pursuing environmental initiatives that exceed prescriptive State mandates, promote the growth in renewable energy capacity at the local level, and reduce fossil fuel dependency.

Policy Platform

Local Control, Finance, and Power Procurement

CPA will pursue legislative and regulatory activity that:

- Supports the authority of CPA and its Board to retain local control over its activities
- Supports the protection of CPA's procurement autonomy
- Supports the ability of CPA to maintain control over its financial decisions

Equitable Treatment of CPA Customers

CPA will pursue legislative and regulatory activity that:

- Supports the fair treatment of CPA customers by the CPUC
- Supports the creation of a regulatory playing field at the state level that is appropriate for community-owned energy providers.

Ratepayer Advocacy and Social Justice

CPA will pursue legislative and regulatory activity that:

- Supports the protection of low-income customers, disadvantaged communities, and other vulnerable populations in CPA service territory
- Supports supplier diversity and workforce development among CPA activities
- Supports the ability for CPA to benchmark its performance on industry objectives

Environmental Leadership

CPA will pursue legislative and regulatory activity that:

- Supports the exceedance of State mandates for environmental performance
- Supports the ability for CPA to promote growth in renewable energy capacity and electrification at the local level
- Supports the ability for CPA and its members to achieve goals for greenhouse gas emissions reductions, climate action planning, and fossil fuel independence

CPA Board of Directors Staff Report from June 7, 2018

To: Clean Power Alliance (CPA) Board of Directors

From: Ted Bardacke, Executive Director

Subject: Authorize Board Chair and Vice-Chairs, Legislative & Regulatory Committee Chair, and Executive Director to Timely Respond on CPA's Behalf on Urgent Legislative and Regulatory Matters

Date: June 7, 2018 – Agenda Item 8

RECOMMENDATION

Authorize the Board Chair and Vice-Chairs, the Legislative & Regulatory Committee Chair, and the Executive Director to collectively and timely respond on CPA's behalf when urgent legislative and regulatory matters arise.

BACKGROUND AND DISCUSSION

CPA will face a number of legislative and regulatory challenges over the course of the next several years. The most recent example is the release of a draft white paper on customer choice by California Public Utilities Commission (CPUC) President Michael Picker that, using erroneous statements and under the guise of "asking questions," claims that CCAs and other customer choice programs pose a threat to the reliability of California's electricity system. Later this month there will be a joint session of the CPUC and the California Energy Commission (CEC) that many believe will be the springboard to a new legislative effort to more tightly regulate or constrain CCAs.

At the May 16, 2018 Executive Committee meeting, discussion centered around not only how to respond to this attack, but also the procedure for doing so in a timely matter, particularly in instances where securing prior Board of Directors approval may not be feasible. In the fall, based on work by the Legislative & Regulatory Committee, it is expected that the Board will consider a set of policy principles that will guide the

organization in the consideration of and response to specific bills, regulatory action or other policy initiatives. Key areas for consideration in these legislative principles include protecting CPA's autonomy and local control by its Board of Directors, ensuring fair treatment of CPA customers by the CPUC, support for performance-based environmental initiatives that exceed prescriptive state mandates, and the growth in renewable energy capacity at the local level.

In the meantime, a protocol for providing a timely response would be advantageous to the organization. The Legislative & Regulatory Committee discussed this issue at its May 23, 2018 meeting and recommended that the Board of Directors approve a protocol that enables CPA to act during times of urgency to conduct important advocacy on behalf of the Alliance.

Together, both the Legislative & Regulatory and Executive Committees recommend that the Board of Directors delegate authority to a group consisting of the Board Chair, Board Vice-Chairs, Legislative & Regulatory Committee Chair, and Executive Director to collectively respond on behalf of CPA on urgent legislative, regulatory or policy matters when it is determined that there is an immediate need to act and the full Board of Directors are unable to provide timely direction.

Under this proposed protocol, the Legislative & Regulatory Committee members and the full Board would be informed of any action taken by this group and would continue to be consulted as time allows.

Staff Report – Agenda Item 3

To: Clean Power Alliance (CPA) Legislative & Regulatory Committee
From: Ted Bardacke, Executive Director
Subject: CPA Letter to Governor-elect Gavin Newsom
Date: November 28, 2018

STAFF RECOMMENDATION

Review and provide feedback on the draft letter to Governor-elect Gavin Newsom and direct staff to transmit the letter to Sacramento.

SUMMARY

To support the Committee's work to establish a 2019 Legislative & Regulatory Policy Platform before the new Governor takes office, CPA has already begun establishing a working relationship with the incoming administration and its appointees as they prepare to take office. Per direction from this Committee, staff has drafted a welcome letter to formally introduce Clean Power Alliance to Governor-elect Gavin Newsom and lay the foundation for a productive partnership with Sacramento to address the many challenges and opportunities facing community choice aggregation, as well as overall energy and environmental issues. CPA will continue leveraging the leadership provided by this Committee and the Board in reaching out to the Governor's Office and the Legislature in 2019, and is also planning to hire a Director of Legislative & Regulatory Affairs early next year to support this work internally.

Staff is seeking Committee feedback on the attached letter.

Attachment: 1) Draft Letter to Governor-elect Gavin Newsom

DRAFT

COUNTY OF
LOS ANGELES

The Honorable Gavin Newsom
Governor-elect

COUNTY OF
VENTURA

State of California
c/o State Capitol, Suite 1173

AGOURA HILLS

Sacramento, CA 95814

ALHAMBRA

Dear Governor-elect Newsom:

ARCADIA

BEVERLY HILLS

On behalf of the Clean Power Alliance of Southern California, we congratulate you on your successful election to the Office of Governor of the State of California!

CALABASAS

CAMARILLO

CARSON

Clean Power Alliance is one of the state’s newest Community Choice Aggregation (CCA) programs, comprised of 31 local agencies across Los Angeles and Ventura Counties. These communities have joined together to provide cleaner electricity at competitive rates, offering a choice in electricity service providers for the first time to nearly three million residents and businesses in Southern California.

CLAREMONT

CULVER CITY

DOWNEY

HAWAIIAN
GARDENS

HAWTHORNE

Our Board of Directors of 31 local elected officials commends your extensive leadership in addressing climate change and energy issues for our state. Southern California leaders are equally committed to addressing this critical issue for our future generations and are making significant strides in doing so. In a strong commitment to reducing energy-related greenhouse gas emissions, Clean Power Alliance’s member jurisdictions will be launching energy service to one million customers at an overall level of over 60% renewable energy, meeting state mandates 10 years early.

OXNARD

PARAMOUNT

REDONDO BEACH

There are still many challenges facing our communities to provide a more sustainable and resilient energy future. Southern California has no shortage of experience with these challenges, including the most recent devastating wildfires. We look forward to working with you and your administration on supporting the unique stability and local accountability that CCAs provide and hope that the appointments you make to your energy team share this vision.
