Welcome!

You will soon enjoy the advantages of clean, renewable power at competitive rates!

Starting May 2019, Clean Power Alliance will be your new electricity provider.

Terms and Conditions of Service

Clean Power Alliance electric generation rates are competitive. Available rates can be reviewed at cleanpoweralliance.org or by contacting Clean Power Alliance at 888-585-3788 (TTY 323-214-1296). Any changes to Clean Power Alliance rates will be adopted at duly notified public meetings of the Clean Power Alliance Board of Directors.

Southern California Edison (SCE) collects from Clean Power Alliance customers authorized charges for delivering power to your home or business and for providing other services. These components of your electric bill are the same whether you buy electricity from Clean Power Alliance or SCE.

Southern California Edison also charges Clean Power Alliance customers a Power Charge Indifference Adjustment (PCI) and a Franchise Fee Surcharge. Both are calculated based on the number of kilowatt hours used each month. The PCI is intended to ensure that customers who switch to Clean Power Alliance pay for energy that was acquired by SCE to serve them prior to their switch. Note that Clean Power Alliance rates are competitive with SCE's rates, even with these fees.

Billing: Each month, Clean Power Alliance customers receive a single monthly bill from SCE, just as they would under SCE bundled service. This bill includes all electric charges, including Clean Power Alliance’s power generation charges. SCE will continue to charge you for transmission and distribution services, which provide this includes the cost of transmitting electricity to your home or business.

Enrollment: You were automatically enrolled in Clean Power Alliance unless you opted out, on your scheduled meter read date on or following February 1, 2019.

Discount Programs: If you are currently enrolled in the California Alternative Rates for Energy (CARA) program, the Family Electric Rate Assistance (FERA) program, Medical Baseline, Level Pay or Summer Discount Program, you will continue to receive all benefits and discounts as a Clean Power Alliance customer.

Opt-out: You have the right to opt out without penalty at any time. You will not be charged any fees by Clean Power Alliance if you opt out or if you cancel electric service altogether (for example, if you move). However, customers who opt out of Clean Power Alliance after service launch may be charged a one-time account processing fee by SCE (currently $50.00), and will be prevented by SCE from returning to Clean Power Alliance for a minimum of twelve months. By opting out, you will be subject to SCE’s then current rates and terms and conditions of service. For details on SCE’s rates and terms and conditions, please visit sce.com or contact us at 888-585-3788 (TTY 323-214-1296). To opt out, please call Clean Power Alliance at 888-585-3788 (TTY 323-214-1296) or visit cleanpoweralliance.org. Please have your electric bill handy so you have the information needed to process the request.

Failure to pay: Clean Power Alliance may transfer your account to SCE upon 14 calendar days’ written notice to you if you fail to pay any portion of the Clean Power Alliance charges on your bill. If your service is interrupted, you may be subject to additional requirements by SCE.

SCE’s one-time account processing fee is subject to change. View SCE’s fees at www.sce.com/regulatory/law/ftl-books.

How does it work?
Your city or county chose to offer you new clean energy options through Clean Power Alliance. Businesses and other non-residential customers in your area will automatically receive energy purchased by Clean Power Alliance that has higher renewable content and is competitively-priced with Southern California Edison (SCE). Starting on your first electricity meter read date in May 2019, you’ll be automatically enrolled at the default level chosen by your city or county, Clean Power with 50% renewable content, but you can choose a different rate at any time. SCE will continue to deliver power, send bills, resolve any electricity service issues, and offer incentives to qualified customers. This is a simple way to demonstrate your organization’s environmental leadership and join us in building a strong economy.

What will it cost?
Clean Power provides a 0-1% overall bill savings compared to SCE and currently costs about 7% less than SCE’s 50% renewable rate. Compare your Clean Power Alliance and SCE rate options by using our bill comparison tool at cleanpoweralliance.org/compare to decide which option is best for your organization’s priorities.

What are my choices?
If you do nothing, you will continue at your community’s default rate. Want a different rate? No problem. You can change your rate at any time by selecting one of Clean Power Alliance’s other two rate options: Lean Power or 100% Green Power. You can also decide to return to SCE by visiting cleanpoweralliance.org or calling us at 888-585-3788. Clean Power Alliance offers businesses the shared benefits of local management and control, stable, competitive rates, and higher renewable content.

¿Cómo funciona?
Su ciudad o condado escogieron ofrecerle nuevas opciones de energía limpia por medio de Clean Power Alliance. Las empresas y otros clientes no residenciales en su área recibirán automáticamente energía comprada por Clean Power Alliance que tiene un contenido renovable más alto y precios competitivos con Southern California Edison (SCE). A partir de la primera fecha de lectura de su medidor eléctrico en mayo de 2019, será inscrito automáticamente en el nivel predeterminado escogido por su ciudad o condado, Clean Power (Energía Limpia) con un contenido renovable de 50%, pero usted puede escoger una tarifa diferente en cualquier momento. SCE seguirá trasmitiendo energía, enviando facturas, resolviendo cualquier problema del servicio eléctrico y ofreciendo incentivos a los clientes cualificados. Esta es una manera simple de mostrar el liderazgo ambiental de su organización y de unirse a nosotros para construir una economía fuerte.

¿Cuánto costará?
Clean Power ofrece un ahorro general del 0–1% en su factura comparado con SCE, que actualmente cuesta 7% menos que la opción 50% renovable de SCE. Compare sus opciones de tarifas de Clean Power Alliance y de SCE usando nuestra herramienta de comparación de tarifas en cleanpoweralliance.org/compare para decidir qué opción es la mejor para las prioridades de su organización.

¿Cuáles son mis opciones?
Si no hace nada, continuará con la tarifa predeterminada de su comunidad. ¿Quiere una tarifa diferente? No hay problema. Puede cambiar su tarifa en cualquier momento al seleccionar una de las otras dos opciones de tarifas de Clean Power Alliance: Lean Power (Energía Lean, 36% renovable) o 100% Green Power (Energía 100% Verde). También puede decidir regresar a SCE visitando cleanpoweralliance.org o llamándonos al 888-585-3788. Clean Power Alliance ofrece a las empresas los beneficios compartidos de la administración y el control local, tarifas estables y competitivas, y mayor contenido de energía renovable.
