Terms and Conditions of Service

Clean Power Alliance electric generation rates are competitive. Available rates can be reviewed at cleanpoweralliance.org or by contacting Clean Power Alliance at 888-585-3788. Any changes to Clean Power Alliance rates will be adopted at duly noticed public meetings of the Clean Power Alliance Board of Directors. Southern California Edison (SCE) collects from Clean Power Alliance customers authorized charges for delivering power to your home or business and for providing other services. These components of your electric bill are the same whether you buy electricity from Clean Power Alliance or SCE.

SCE also charges Clean Power Alliance customers a Power Charge Indifference Adjustment (PCIA) and a Franchise Fee Surcharge. Both are calculated based on the number of kilowatt hours used each month. The PCIA is intended to ensure that customers who switch to Clean Power Alliance pay for energy that was acquired by SCE to serve them prior to their switch. Note that Clean Power Alliance rates are competitive with SCE’s rates, even with these fees.

Billing: Each month, Clean Power Alliance customers receive a single monthly bill from SCE, just as they would under SCE bundled service. This bill includes all of the recent electric charges, including Clean Power Alliance’s power generation charges. SCE will continue to charge you for Transmission and Distribution services they provide, including the cost of transmitting electricity directly to your home or business.

Enrollment: Starting February 2019, Clean Power Alliance will become the default electric power provider for your area. You will be automatically enrolled in Clean Power Alliance on your next scheduled meter read date on or following February 1, 2019.

Discount Programs: If you are currently enrolled in the California Alternative Rates for Energy (CARE) program, the Family Electric Rate Assistance (FERA) program, Medical Baseline, Level Pay or Summer Discount Program, you will continue to receive all benefits and discounts upon enrollment in Clean Power Alliance.

Opt out: You have the right to opt out without penalty any time. You will not be charged any fees by Clean Power Alliance if you opt out or if you cancel electric service altogether (for example, if you move). However, customers who opt out of Clean Power Alliance after service launch may be charged a one-time account processing fee by SCE, and will need to pay any fees by Clean Power Alliance if you opt out or if you cancel electric service altogether (for example, if you move).

How does it work?

Clean Power Alliance purchases clean power and Southern California Edison (SCE) delivers it. Nothing else changes—SCE will continue to deliver power to your home, send just one bill, be responsible for resolving any issues with your electricity service, and qualified customers will continue to have access to financial assistance, rebates, and incentives.

Starting in February 2019, you will be automatically enrolled in Clean Power which provides 50% renewable energy content and the opportunity to support building a cleaner future. For more details about your rates visit cleanpoweralliance.org.

The choice is yours!

You can change your service at any time by selecting one of Clean Power Alliance's other two rate options: Lean Power, which provides 36% renewable energy content at the lowest possible cost, and 100% Green Power, which provides 100% renewable energy content and gives customers the opportunity to be an environmental champion. To learn more, change your rate, or opt out visit cleanpoweralliance.org or contact us at 888-585-3788 (TTY 323-214-1286).

¿Cómo funciona?

Clean Power Alliance compra energía limpia y SCE la entrega. Nada más cambia—SCE seguirá transmitiendo energía a su hogar, enviando una sola factura, siendo responsable de resolver cualquier problema con su servicio eléctrico, y los clientes que reúnen los requisitos seguirán teniendo acceso a asistencia e incentivos económicos y reembolsos.

A partir de febrero de 2019, usted será inscrito automáticamente en Clean Power que ofrece energía con un contenido renovable de 50% y la oportunidad de ayudar a crear un futuro más limpio. Para más detalles sobre sus tarifas visite cleanpoweralliance.org.
