

CPA Cost of Service Ratemaking Study Task Order Questions & Responses

#	Question	Answer
1	<p>Section I. “Currently CPA’s rate setting approach is a hybrid of cost-of-service rates and rates that are indexed to SCE’s rates...”</p> <p>Has CPA prepared, or had prepared, a cost-of-service study in the past? If so, when was it last updated and who prepared the study?</p>	CPA prepared a cost-of-service study in the past. It was last updated in March 2021. CPA declines to state who prepared the study.
2	<p>Section IV. A. “Identify Data Needs to analyze and implement COS based rate setting approaches and potential data gaps.”</p> <p>Does CPA have access to historical AMI data for its customers and does it utilize a third-party vendor to manage the data?</p>	CPA has access to historical AMI data for its customers. CPA utilizes a third-party vendor to manage the data and has its own data warehouse.
3	<p>Section IV. A. “Identify the cost to serve customers with behind the meter generation and storage assets and electric vehicles/Electric Vehicle Supply Equipment (EVSE).”</p> <p>Is the intended analysis to be based on CPA specific circumstances (i.e., based on data from existing CPA customers) or conceptual, based on assumed customer adoption of these technologies?</p>	Analysis is intended to be based on CPA specific circumstances and customer data.
