Introduction and Key Information

This document contains the applicable rates and credits for customers participating in the Clean Power Alliance Power Share program. These rates and credits are continuously calibrated to ensure that Power Share program participants are receiving a 20% overall bill discount, on top of their existing rate. Customers enrolled in Power Share receive 100% renewable energy produced in communities defined as “disadvantaged” according to California Assembly Bill (AB) 327 within Clean Power Alliance or Southern California Edison (SCE) service territory.

Please see the official Power Share Tariff at cleanpoweralliance.org/powershare for full program eligibility requirements and program terms and conditions.

The rates and credits shown in this document are for electric generation/supply only. Please visit SCE.com for delivery rates and schedules. Enrollment in Power Share does not change your existing SCE rate type.

Rate Period Definitions

Please see Clean Power Alliance’s full rate schedules at cleanpoweralliance.org/residential-rates for additional rate information.
