

Calabasas is going to 100% Green Power!

In October, clean energy produced by sources like the sun and wind will be used to power homes and businesses in Calabasas.

This will reduce **39,946** metric tons of greenhouse gas emissions, annually, which is like planting **995,864** trees or taking **13,097** cars off the road.

Thank you, Calabasas!

More information about this transition and your options on the back.

**IMPORTANT NOTICE FROM CLEAN
POWER ALLIANCE, YOUR
ELECTRICITY PROVIDER.**

Will this increase my electricity bill?

- Because it costs a bit more for clean energy, a typical bill for residents and small businesses will go up by approximately **3.5%** a month. That's about \$3.50 extra on your electric bill per \$100. To offset this cost, you could simply turn your thermostat up during the summer by 2 degrees! Follow Clean Power Alliance to learn more energy saving tips.

What if I don't want to pay more?

If you want to keep your bill what it is currently, opt down or opt out, visit cleanpoweralliance.org/compare or you can call us at **888-585-3788** or email us at customerservice@cleanpoweralliance.org.

And because Clean Power Alliance cares about our communities, we offer many customer assistance programs. Visit cleanpoweralliance.org/CPAbillhelp to learn more and see if you qualify.
