RECOMMENDATION
Adopt Resolution 22-02-024 finding the continuing need to meet by teleconference pursuant to Government Code Section 54953 (e).

BACKGROUND/DISCUSSION
This Resolution is required pursuant to AB 361, signed by Governor Newsom on September 20, 2021, so that CPA may continue to meet under the modified teleconferencing rules.

The State of Emergency declared by Gov. Newsom remains in effect and COVID-19 and the Omicron variant continues to pose a threat to the health and lives of the public as discussed more fully in Resolution 22-02-024. For these reasons, the recommended action is for the Board to adopt the attached Resolution 22-02-024 Finding the Continuing Need to Meet by Teleconference Pursuant to Government Code Section 54953(e).

This Resolution will authorize the Board to hold teleconference meetings within the requirements of AB 361 but does not prohibit the Board from holding in person meetings in the future.

WHEREAS, such State of Emergency due to COVID-19 remains in effect; and

WHEREAS, COVID-19 continues to threaten the health and lives of the public; and

WHEREAS, the Delta variant is highly transmissible in indoor settings and breakthrough cases of COVID-19 remain common and the Omicron variant has emerged as a variant of concern.

NOW, THEREFORE, BE IT DETERMINED, AFFIRMED, AND ORDERED BY THE BOARD OF DIRECTORS OF THE CLEAN POWER ALLIANCE OF SOUTHERN CALIFORNIA THAT:

IT IS DETERMINED, AFFIRMED, AND ORDERED that due to COVID-19, holding in-person meetings of the Board of Directors, Executive Committee, Three Standing Committees, and CAC of CPA will present imminent risk to the health and safety to attendees.

IT IS FURTHER DETERMINED, AFFIRMED, AND ORDERED that meetings of the Board of Directors, Executive Committee, Three Standing Committees, and CAC of the CPA may continue to meet by teleconference in accordance with Government Code section 54953(e).

**Motion:** Director Pierson, Malibu
**Second:** Director Vizcarra, Temple City
**Vote:** The consent agenda was approved by a roll call vote, with abstentions from Directors Weirick, and Smith, on Item 2.

David McNeil, Chief Financial Officer, stated that CPA worked with independent auditors from Baker Tilly, to conduct an audit of CPA’s finances. Mr. McNeil then discussed the FY 2020-21 financial results, noting that CPA faced numerous challenges arising from extreme heat events in summer of 2020, increased costs to procure electric capacity (Resource Adequacy), the impacts of slowing customer payments due to the mandated moratorium on disconnections, and the COVID-19 induced economic recession. CPA met its financial objectives by transferring $27 million from the fiscal stabilization fund to revenues in FY 2020-21; and from the application of $15.8 million in funding from the California Arrearage Payment Program (CAPP). CPA increased its net position by $27.6 million and holds no bank debt or loans as of June 30, 2021. Liquidity increased slightly to $95 million and energy costs exceeded the amended budget by 0.85% due to the delivery of renewable energy that occurred sooner than budgeted. Mr. McNeil reviewed in detail the balance sheet components as of June 30, 2021, stating that CPA’s current assets primarily include cash and accounts receivable. Mr. McNeil reviewed select financial indicators; provided a budget to actual analysis, summarizing operating revenues, energy costs, operating expenses, non-operating revenues.

Mr. McNeil provided a presentation of the FY first quarter financial performance ending September 30, 2021. CPA reported a $9.2 million gain, $41.5 million above a budgeted net loss of $32.5 million. Financial results were favorably impact by lower energy costs arose from lower than budgeted load, the absence of heat events in CPA’s territory, and CAISO spot market prices that were lower than prices energy forward prices. Mr. McNeil also reviewed year over year financial results, which indicated improvement as a result of moderate temperatures in FY Q1 2021 and a rate increase in July 2021. Mr. McNeil concluded with a summary of liquidity and key financial indicators, discussed CPA’s larger credit facilities, and stated that CPA is well positioned to complete the current fiscal year within or ahead of budget.

Director Gold, Chair of the Finance Committee, shared that the Committee met with the financial auditors, who indicated that the audit found no material deficiencies and commended the CPA team for navigating the unique situations the industry faced in the past year. In response to questions, Mr. McNeil clarified that there is a .45% non-utilization fee for the bank loan and if CPA were to borrow on the credit facility it would do so at the base rate plus 175 basis points; most of CPA’s cash is held at River City Bank in an interest earning account, and a small amount kept in the Local Agency Investment Fund with a rate of return at or slightly above 0.25%.

Chair Mahmud thanked staff and the Finance Committee for their contribution in maintaining CPA’s fiscal health.
10. Receive Presentation on 2022 PCIA and SCE Rates Outlook

Matt Langer, Chief Operating Officer, provided a presentation on the item. Southern California Edison (SCE) filed its 2022 Energy Resource Recovery Account (ERRA) forecast in November; this update provides a detailed look at SCE’s generation rate and the PCIA. The initial analysis conducted by staff indicates that the PCIA is dropping by approximately 70% in 2022 and CPA customers will see a bill reduction of around 6% beginning in March 2022. The PCIA decrease is due primarily to the historically high energy market forward prices in 2022, which reduce above-market costs for SCE’s PCIA portfolio. Mr. Langer discussed competitive impacts; SCE’s generation rates are increasing by around 22% starting in March 2022. The increase combined with the decreased PCIA will improve CPA’s competitive position, leading every CPA product to be less expensive than SCE as of March 1. Mr. Langer reviewed some factors contributing to SCE’s increased generation rates, including the 2021 undercollection of $700+ million and elevated forward energy prices. Staff is planning CPA’s 2022 rate setting strategy. Early considerations include the use of cost-of-service principles in rate setting; potentially lower SCE rates and a higher PCIA in 2023; and CPA’s contributions to the reserves and/or fiscal stabilization fund in anticipation of a more challenging rate environment in 2023.

Director Pierson encouraged staff to think about ways to market this positive information to new customers and new agencies that might want to join CPA. Director Weirick noted that accumulation of cash is important during economic times where interest rates might go up. Director Gero commented that the narrowing gap between the Clean and 100% Green rate in the coming year can serve as a window of opportunity in several cities for transition to the 100% Green rate. In response, Mr. Langer clarified that the forecast in 2023 may change, and while CPA will highlight this competitive edge, it will continue its long-term messaging of communicating its value proposition and not overly emphasizing its comparison to SCE. Mr. Langer calculated that the 6.6% residential bill reduction will translate into an $11 or $12 monthly reduction and noted that the staff will be bringing a discussion about rates to the Board in the spring as part of CPA’s annual rate setting process.

Director Horvath asked if there would be any repercussions for SCE undercollecting such a large amount and commented that this may serve as an opportunity for CPA to call attention to the behavior of the IOU. Mr. Langer explained that this year, unlike in 2018, SCE followed the correct process and therefore is unlikely to face any consequences with the CPUC. Ted Bardacke, Executive Director, added that SCE’s frequent multiple rate increases to both generation and delivery is getting noticed, particularly at a time when affordability is an important part of the discussion. Chair Mahmud noted that regulators recently recognized that energy bills used to be affordable, but that is no longer the case. Director Zuckerman asked about the impacts of SB 612 and Director Kulcsar asked about outreach to customers who previously opted out. Mr. Langer explained that SB 612 would have likely lowered RA costs; and there will be opportunities for outreach, but the strategy will be adjusted once CPA sets its own rates. Chair Mahmud asked if PG&E also undercollected and if SCE was compelled by CPUC regulations to submit its rates. Mr. Langer clarified that PG&E did undercollect and Northern CA CCAs also face similar dynamics; SCE is indeed
compelled by CPUC decisions that determine when they file and there is currently no consensus on if the due dates for SCE filings should be changed.

11. Receive Presentation on CPA’s Long-Term Energy Product and Portfolio Content

Mr. Bardacke provided a presentation on CPA’s portfolio content, noting that the Board approved the Energy Portfolio Content for Calendar Years 2021 and 2022 that reduced the overall renewable portfolio content to offset rising customer costs with the expectation of returning to previous portfolio content levels in Calendar Year 2023. Long-term planning is needed as staff prepares the 2022 Integrated Resources Plan (IRP) and more of CPA’s load is being met by long-term PPAs. Mr. Bardacke reviewed the current portfolio content, default levels and renewable content. Mr. Bardacke explored CPA’s competitive dynamic and explained that if in 2023, CPA reverted to its 2020 product content levels, SCE would catch up to the renewables level in CPA’s Clean product within 5 years. CPA will likely have to change its Lean and Clean products. State and federal mandates may also accelerate the timeline and the price difference of the Lean and Clean rates is small. Mr. Bardacke presented three approaches for long-term strategy: (1) climate leadership, where CPA sets escalating targets over time; (2) competitive targets to meet or beat SCE; and, (3) compliance, with a minimum floor of renewables/GHG compliance at the product level. Mr. Bardacke discussed how the three approaches would impact the three different rate products. The Lean product would not align with CPA’s climate leadership position, and should CPA decide to maintain a competitive Lean product, there would likely be years when it is more expensive than SCE’s base rate. Options for the Clean product include climate leadership, where Clean reaches 100% Green level by 2030 or 2035, ensuring progress towards statewide targets; but can come at a higher cost than SCE’s rate. Under the competitive approach, Clean always beats SCE in environmental targets; however, it’s more difficult to forecast SCE’s portfolio content and long-term cost impact. Under the compliance approach, Clean would be a low cost RPS/GHG compliant product, but this may lower the environmental performance of Clean over time. Mr. Bardacke invited feedback on how CPA wants to pursue the increase of renewable content to meet statewide 2030 GHG reductions over the next decade; CPA’s leadership vs. compliance with SCE; and other ideas. Staff will collect input while also preparing the IRP and plans to make a recommendation in Q1 or Q2 prior to FY 2022/23.

Director Gero commented that L.A. County’s goal in creating CPA was environmental leadership and that measured leadership would be the right approach and merging the Lean and Clean tiers is the right thing to do. Director Kulcsar noted that CPA should try to get back to the higher levels of renewables in the Lean and Clean products and Carson will need more time to digest the options and get back to staff. Director Monteiro shared he will encourage his City Council to vote to move to 100% Green due to the closing gap in pricing between the two. Director Luevanos noted that although her City is primarily concerned with costs, it cannot continue to ignore the impacts of climate change, and will encourage the City to transition to greener options and supports a leadership approach for CPA. Director Santangelo shared that Camarillo has similar concerns and favors merging the rate products over time. Director Parkhurst noted similarly that costs are very important to Sierra Madre’s City Council, supports merging the Clean and 100% Green products. Director Gold expressed support for merging products and taking a leadership approach; suggested creation of a slightly lower
Director Zuckerman also expressed support for merging Lean and Clean, and gradually narrowing the gaps between Clean and 100% Green. Vice Chair Parks expressed support for incentivizing 100% Green and phasing out Lean for new customers. Director Calaycay noted that given the state’s accelerated timeframe for 100% renewables, CPA will have to consider merging the Lean and Clean tiers and noted how defaulting all new customers to 100% Green is a way to encourage a transition to a 100% default rate.

Director Lee asked if there were any financial incentives from suppliers or government assistance to get to 100% renewables. Mr. Bardacke noted there is not a lot of movement in the market for volume discount and CPA often has to manage its purchases so as to not drive-up demand. There is some bipartisan funding for EV chargers and transmission that may reduce overall costs to the consumer, but not necessarily to CPA.

Chair Mahmud noted a strong consensus to merge the Lean and Clean over time.

MANAGEMENT REPORT
Mr. Bardacke provided an update on the Power Ready program; the memorandum of understanding is in the final stages of review and staff hopes to get it to member agencies for approval. A potential Board retreat may occur at an outdoor location in the spring of 2022 pending the development of the COVID-19 pandemic.

COMMITTEE CHAIR UPDATES
Director Parkhurst, Energy Committee Chair, discussed the Reliability RFO results. The Committee will review the 89 bids received, including nine long duration storage projects and seven geothermal projects.

BOARD MEMBER COMMENTS
None.

REPORT FROM THE CHAIR
Chair Mahmud shared an update on the CalCCA Annual Conference where regulators expressed concern about affordability and noted some discussions about the possibility of the State funding projects such as infrastructure improvements for wildfire and new transmission. Chair Mahmud also shared that Mr. Bardacke’s commentary at the conference focused on the fact that CPA’s decisions are member-driven, and the biggest takeaway was that CPA is an innovative industry leader.

CONSENT AGENDA
1. Adopt Resolution 22-01-023 Finding the Continuing Need to Meet by Teleconference Pursuant to Government Code Section 54953 (e)

Motion: Director Gold, Beverly Hills
Second: Director Parkhurst, Sierra Madre
Vote: Item 1 was approved by a roll call vote.

MANAGEMENT REPORT
Ted Bardacke, Chief Executive Officer, discussed recent default changes; unincorporated Los Angeles County, Beverly Hills, and Redondo Beach, voted to change their default rate to 100% Green beginning October 2022. These decisions bring the number of entities at the 100% Green default rate to 18 of 32 member agencies. This solidifies CPA as the number one provider of 100% renewable energy in the country. Mr. Bardacke noted that opt-out levels were approximately 50% higher than normal in December as a result of customer activity in response to the annual Joint Rate Comparison (JRC) mailer.

In response to Director’s questions, Mr. Bardacke clarified that CPA does track return of customers who previously opted-out, but generally, residential customers don’t tend to come back to CPA for service. However, some commercial customers, or those on direct access, have recently returned. Director Ellison congratulated LA County, Beverly Hills, and Redondo Beach for changing their default rates and offered advocacy assistance to other cities that might need it.
Director Monteiro thanked Director Ellison and Mr. Bardacke for their assistance in presenting CPA's value to the Hawthorne City Council.

To: Clean Power Alliance (CPA) Board of Directors

From: Jack Clark, Senior Director, Customer Programs

Approved By: Ted Bardacke, Chief Executive Officer

Subject: Memorandum of Understanding with Electrical Training Institute

Date: February 3, 2022

RECOMMENDATION

Approve and authorize the Chief Executive Officer (CEO) to execute a memorandum of understanding (MOU) between CPA and Electrical Training Institute (ETI) for Program Implementation Services on the Clean Energy Workforce Development Investment Plan project with a total financial contribution of $225,500.

BACKGROUND

As part of the terms of its 2019 Power Purchase Agreement (PPA) with CPA, Mohave County Wind Farm, LLC agreed to invest $1 million over four years in workforce development efforts for Los Angeles and Ventura Counties at the direction of CPA. CPA staff prepared a landscape analysis of clean energy workforce development investment opportunities and presented the analysis to the members of the Community Advisory Committee (CAC) at their October 22, 2020 meeting. Based on CAC feedback, CPA developed workforce investment options and presented them to the full Board at the December 3, 2020 meeting.

The Board directed staff to seek out program investments that will “green” existing jobs by providing training and resources to give workers the skills necessary to facilitate building and transportation electrification. Union apprenticeship programs, clean energy rapid skills training, and certificate programs for both union and non-union pathways were
identified as the types of investments that staff should consider. After detailed conversations with numerous entities that run workforce development programs with a green building and transportation electrification emphasis, on November 4, 2021 staff proposed to the Board a Phase 1 investment in 2022 in two programs using approximately 40% of the available funds and covering the 2021-2022 calendar years of the Mohave County Wind Farm workforce development funding. The Board approved the recommendation.

The Phase 1 investment plan of $398,500 includes two programs, both to be implemented in 2022. These programs are:

1. A microgrid (solar + storage) maintenance workforce training program, with the Advanced Prototyping Center at the Los Angeles Clean Tech Incubator (LACI).
2. Two cybersecurity apprenticeship trainings for smart buildings & smart cities, with the International Brotherhood of Electrical Workers (IBEW). These trainings will be taught by Electrical Training Institute (ETI) and Ventura County Electrical Joint Apprenticeship Training Committee (VCEJATC).

Staff will evaluate the outcomes of the programs after the first phase to determine how the remaining funds should be invested in 2023-2024.

**PROPOSED MOU WITH ETI FOR PROGRAM IMPLEMENTATION SERVICES**

Staff is seeking approval to authorize the CEO to execute Program Implementation Service agreements on the Clean Energy Workforce Development Investment Plan based on a memorandum of understanding between CPA and ETI for Western Electric Cybersecurity Apprenticeship Trainings in Los Angeles County for $225,500.¹ ETI is the primary training facility for IBEW Local 11, with approximately 1,200 active apprentices a year.

¹ The MOUs with LACI ($50,000) and VCEJATC ($123,000) are under development but do not require Board approval as they fall within the CEO’s $125,000 signing authority.
CPA funding will enable ETI to purchase 11 training boards that apprentices at ETI will utilize during the classroom training. These materials can be used for up to three consecutive cohorts before needing to be replaced. Curriculum already been developed by UC Davis using a $5 million grant from the US Department of Labor.

**ETI Reporting Obligations**

The MOU requires the following of ETI:

1. Submission of a bi-annual report on students that complete the program over a three-year period. The bi-annual report must include the following metrics:
   a. Student graduation rates from the apprenticeship program
   b. Percentage of salary increase post-training, if applicable
   c. Student demographics, including:
      i. highest level of education for students
      ii. percentage of students from a disadvantaged community
      iii. percentage of students who are veterans
      iv. percentage of students who were previously incarcerated
      v. percentage of students who were under or unemployed

2. Collaboration on development of a pre-training survey to determine employment status and current wage (percentage of journeyman's rate).
3. Collaboration on development of a post-training graduation survey to determine employment or planned employment as a result of the WECAT training

**FISCAL IMPACT**

The cost of the MOU is incorporated into the FY 2021-22 budget.

**ATTACHMENT**

1) Memorandum of Understanding between ETI and CPA
MEMORANDUM OF UNDERSTANDING (MOU)

This Memorandum of Understanding ("MOU"), made as of the last date signed below (the “Effective Date”), by and between the Electrical Training Institute, Inc. ("ETI") and Clean Power Alliance of Southern California ("CPA"), referred to individually or collectively as “Party” or “Parties,” is to begin workforce development cybersecurity training, described in more detail below.

RECITALS

WHEREAS, CPA desires to support clean energy workforce development efforts in its service territory; and

WHEREAS, ETI is the primary training facility for International Brotherhood of Electrical Workers ("IBEW") Local 11, with approximately 1,200 active advanced apprentices a year who take advanced classes in specialized electrical skills, including classes around clean energy, during their final years of training; and

WHEREAS, ETI has received a grant to develop the Western Electrical Cybersecurity Apprenticeship Training for Smart Buildings & Smart Cities ("WECAT Training") to train electricians who install the electrical network to make smart building and smart city power system infrastructure more secure and resilient via hardware upgrades; and

WHEREAS, ETI still needs additional funding for the lab equipment that apprentices would need during the classroom training.

WHEREAS, CPA will provide ETI with $225,500.00, which will fund an estimated 11 training boards that apprentices at ETI will utilize during the classroom training.

NOW, THEREFORE, in consideration of the mutual promises and agreements herein contained, it is mutually understood and agreed by and between the Parties as follows:

1. **Term.** This MOU shall begin on the Effective Date and terminate on June 30, 2025, at which point, CPA and ETI may agree, by mutual written agreement, to extend the term of this MOU by up to two additional years for a maximum of five (5) years.

2. **CPA Payment.**
   CPA will make a one-time payment of $225,500.00 to ETI within 30 days of the Effective Date.

3. **ETI Obligations.** In consideration of the payments set forth in this MOU, ETI shall perform obligations in accordance with the terms, conditions, and specifications set forth herein, including as follows:
i. ETI agrees to provide CPA with a bi-annual report, for three years, to report on students that complete the program over the three-year period. The bi-annual report must include the following metrics:
   1. Student graduation rates from the apprenticeship program
   2. Percentage of salary increase post-training, if applicable
   3. Student demographics, based on voluntary reporting by the student, including: highest level of education for students, percentage of students from a disadvantaged community, percentage of students who are veterans, percentage of students who were previously incarcerated, percentage of students who were under or unemployed

ii. ETI will work with CPA to develop a post-training graduation survey to determine employment or planned employment as a result of the WECAT training.

iii. ETI will work with CPA to develop a pre-training survey to determine employment status and current wage (percentage of journeyman’s rate).

iv. The first report shall be sent by no later than December 31, 2022, with the next report no later than June 30, 2023, and continue bi-annually, until June 30, 2025, unless extended or earlier terminated.

4. **Indemnification.** ETI agrees to indemnify, defend, and hold harmless CPA and its employees, officers, and agents, from and against any liability for, and shall assume full responsibility for, payment of all wages, state or federal payroll, social security, income or self-employment taxes, with respect to ETI’s performance of this MOU. ETI further agrees to indemnify, defend, and hold harmless CPA from and against any and all third-party claims, liabilities, penalties, forfeitures, suits, costs, and expenses incident thereto (including costs of defense, settlement, and reasonable attorney’s fees), which CPA may hereafter incur, become responsible for, or pay out, as a result of death or bodily injuries to any person, destruction or physical damage to tangible property, or any violation of governmental laws, regulations or orders arising from ETI’s performance of the terms and conditions of the MOU, except for such loss or damage arising from the sole negligence or willful misconduct of CPA.

5. **Insurance.**
   a. ETI agrees to provide and maintain throughout the term of this MOU, at its own expense, a program of insurance, or self-insurance, covering the activities and operations of their respective officers, agents and employees and contractors for the term of this MOU. This insurance shall include general liability insurance with coverage limits of $2,000,000 per occurrence and $2,000,000 aggregate (unless the aggregate is on a per-policy basis, in which
case the aggregate shall be a minimum of $4,000,000). This insurance shall be endorsed to include the following: (i) CPA, its Board, Officers, Officials, Employees, Agents, Servants, and Volunteers are covered as additional insureds on ETI’s commercial general liability policy; and (ii) a written notice to be mailed to CPA 30 days prior to the effective date of a cancellation or non-renewal of such insurance.

b. ETI agrees to maintain throughout the term of this MOU, at its own expense, a workers’ compensation policy as required by the State of California, with Statutory Limits and Employer’s Liability Insurance of no less than $1,000,000 per occurrence for bodily injury or disease.

c. Nothing herein shall be construed as a limitation on ETI’s obligation under paragraph 4 of this MOU to indemnify, defend, and hold CPA harmless from any and all liabilities arising from the ETI’s performance of this MOU. CPA agrees to timely notify ETI of any claim. Failure to provide and maintain the insurance required by this MOU will constitute a material breach of the MOU. In addition to any other available remedies, CPA may suspend payment to ETI for any services provided during any time that insurance was not in effect and until such time as ETI provides adequate evidence that ETI has obtained the required coverage.

6. **Publicity.** Any publicity generated by either Party related to the performance of this MOU must reference both Parties’ contributions. The words “Clean Power Alliance” and “Electrical Training Institute” shall be displayed in all pieces of publicity, including flyers, press releases, posters, brochures, public service announcements, interviews, and newspaper articles (to the extent possible). Any piece of publicity, including those mentioned above, must be reviewed and approved by both Parties before issuing a press release. Each Party agrees to provide the other Party with reasonable time for review before such issuance.

Where CPA and ETI logos are used on any signage or documentation arising from this partnership, the logos of each Party will be of equal size. No signs may be posted, exhibited, or displayed on or about either Party’s property, except signage required by law or contemplated under this MOU, without prior written approval from each of the Parties.

JANUARY MEETING REPORT
In response to public comment and during the CEO’s oral update on CPA operations, the CAC engaged in discussion about the proposal before the California Public Utilities Commission (CPUC) to substantially change the rules that govern the Investor-Owned Utilities Net Energy Metering (NEM) program that incentivizes rooftop solar. Committee members asked for an update on CPA’s position and, while recognizing that CPA is not bound by the CPUC decision and can determine its own NEM policy, several members expressed a desire for the organization to become more active in this state policy debate. CPA staff will brief the CAC at its February meeting and will continue to seek input from the CAC on CPA’s NEM policy after the CPUC votes on a final decision.

As part of the Regular Agenda items, the CAC received an update on Diversity, Equity and Inclusion (DEI) planning. CPA Senior Advisor for Strategy, Karen Schmidt, provided an update on the CPA DEI plan. The development of a DEI plan within CPA is an opportunity to create and ensure meaningful change as a community-based energy provider grounded in values of equity and inclusion as part of sustainability. Based on the feedback received during the November 12, 2021 CAC retreat, staff identified the following recommended priorities for CAC engagement and support on DEI initiatives while CPA’s internal DEI work progresses this spring:
• Identify, meet, and build relationships with specific community organizations around DEI goals in collaboration with CPA staff.
• Participate in stakeholder surveys and interviews as part of CPA’s DEI assessment and plan implementation process.
• Periodically review and provide input to staff and Board on DEI plan, goals, metrics, and outcomes.
• Identify and support the implementation of one or more annual community DEI projects/initiatives in collaboration with community organizations and CPA staff.
• Provide input on the design of future community grant programs and participate in grant review panels.

NEXT STEPS
On January 27, CPA staff met with a working group of CAC members to further refine the CAC workplan for final adoption by the CAC at their February 17 meeting. Based on the input and discussion surrounding the strengths and weaknesses of the former workplan and feedback from CAC members regarding 2021 accomplishments, staff will be adding specific DEI components relevant to the 2022 CAC Workplan. These will include:
  o Assist in development of community engagement plan and participation by identified key organizations
  o Provide feedback regarding local communities and neighborhoods

Additionally, CPA staff will follow up with individual CAC members on the activities outlined above. The CAC provided feedback on the role of the committee and its members. The CAC members noted that the vision for the CAC should focus more long-term on how best to connect communities and cultivate relationships with organizations and youth with the work CPA is doing.

### Major Action Items and Presentations

#### January
- Executive Director Update
- Diversity, Equity, and Inclusion Plan Update
To: Clean Power Alliance (CPA) Board of Directors

From: Ted Bardacke, Chief Executive Officer
      Nancy Whang, General Counsel

Subject: Public Notice of Intent to Revise Bylaws and Discussion of Draft Revision to Bylaws

Date: February 3, 2022

BACKGROUND

Per Clean Power Alliance’s Bylaws, adopted by the Board on March 7, 2019¹, Board Officer elections are to be held in the coming months in sufficient time for the Chair and Vice-Chairs to take office for a new two-year term beginning on July 1, 2022. For a variety of reasons – termed out of local elective office or choosing not to run for local elective office in November 2022 – the current Chair and Vice-Chairs will not be able to stand for Officer elections for the July 2022 – June 2024 time period.

To organize an orderly transition to a new Chair and Vice-Chairs and adhering to the current Bylaws, CPA would hold elections according to the following schedule:

- March 2022: Announcement of election of New Chair
- April 2022: Election of New Chair; Announcement of election of New Vice-Chairs
- May 2022: Election of Vice-Chairs; New Chair names Chairs of the three Standing Committees; Announcement of election of at-large Executive Committee members
- June 2022: Election of at-large Executive Committee members
- July 2021: First Board and Committee meetings with new Officer leadership

Subject to the potential resolution of some of the items described in this staff report and bearing in mind the 2022 local and state election calendar, this schedule could be pushed

¹ On October 3, 2019, the Board approved amendments to the Bylaws authorizing non-elected Alternate Directors to participate in closed session.
back by one or two months, as the Bylaws allow for Board Officers and the then-current Executive Committee members, including Standing Committee Chairs, to continue to serve in their position until an election is held at a meeting of the Board.

In adopting the Bylaws, the Board expressed a policy goal for CPA’s Board leadership to be represented by Directors who have a demonstrated commitment to CPA’s mission and who would remain directly accountable to CPA’s customers. Accordingly, the Bylaws established eligibility criteria for Board Officers, Standing Committee Chairs, and Executive Committee members that were intended to represent this policy objective. These eligibility criteria are as follows:

- The potential candidate must be a Regular Director, i.e., an elected official;
- The potential candidate must have attended at least 50% of the Alliance’s Regular Meetings in the prior 12 months; and,
- The potential candidate must affirm that he/she intends to serve a full term as a Board Officer, a Standing Committee Chair, and/or an Executive Committee member.

**DISCUSSION**

In most respects the eligibility criteria met the Board’s goal. For example, the Bylaws only allow a Regular Director, who must be an elected member of a Member Agency’s governing body, to hold a leadership position. Meanwhile, the requirement that the potential candidate intends to serve a full term is important for stability; uncertainty about who is committed to run in local elections in 2022 means without this provision, CPA could go through a leadership transition process in the spring of 2022 and then have to reshuffle again six months later should any of the new Board Officers, Executive Committee members, or Chairs of the Standing Committees no longer be eligible to be CPA Regular Directors. While some of this uncertainty is normal and acceptable with a large Board of local elected officials like that of CPA, the issue is particularly acute in 2022 with approximately half of our eligible Board members running for existing seats, new offices, or termed out.
In other respects, the impact that these criteria would have at a time of leadership transition were not fully anticipated. One particular issue concerns CPA’s two current Vice-Chairs, both of whom are County Supervisors who will vacate their Supervisorial seats at the end of 2022. The Bylaws were adopted during CPA’s startup phase as CPA was in the process of fully enrolling its 1 million customer accounts. Since that time, CPA has faced and overcome a spectrum of challenges ranging from rate and energy market uncertainty to a worsening climate crisis and the COVID-19 pandemic. CPA depended on its leadership, particularly its County Member Agencies, during this time and the County Directors have demonstrated commitment to CPA at critical moments. For example, the County of Los Angeles provided start-up funding in the amount of $10 million and authorized a $30 million loan in August 2021 as CPA weathered multiple storms. CPA’s Vice-Chair from Ventura County has provided regional leadership and coordination particularly during CPA’s enrollment period when negative press peaked, as well as demonstrated commitment and leadership to set initial default levels at 100% Green in 5 of the 8 Ventura County jurisdictions. The uncertainties related to the energy markets, climate change, and COVID remain unabated, and CPA will continue to benefit from leadership from our County Member Agencies into the foreseeable future.

Under the current version of the Bylaws, two current Vice-Chairs are ineligible to run for a Board Officer or Executive Committee At-Large seat because they are unable to affirm that they intend to serve a full term and would have to leave their CPA leadership positions in June of this year. At the same time, if a newly appointed Supervisor wanted to run for Vice-Chair, that Supervisor must have attended 50% of Regular Meetings in the prior 12 months. So as a practical matter, Supervisors who are current Board Alternates would have had to start attending every Board meeting several months ago in order to establish an attendance record prior to the anticipated election of Board Officers, while the other Supervisor also attended as a Regular Director and served as Vice-Chair. This is impractical.

Another option for a County Supervisor to have established an attendance record would have been for the Vice-Chairs to have left the Board a few months ago, prior to their term as Vice-Chair expiring and be replaced by a new Supervisor, who would not serve in a
leadership position. In this case and during these 6 months, CPA could be without a Vice Chair and would not benefit from the Vice Chairs’ insight and knowledge. Nor would the organization gain from the institutional benefits of a Supervisor serving in a leadership position. This issue of County Supervisors being eligible for a Board leadership position could continue beyond this cycle and into the foreseeable future under the existing Bylaws.

Lastly, in adding the immediate past Chair to the Executive Committee, the policy goal was to retain CPA-specific institutional knowledge and experience and it was assumed that the immediate past chair would remain a Regular Director. However, that may not be the case as the immediate past Chair could end up being an Alternate Director, which does not erase their institutional knowledge and experience but as an Alternate Director would be precluded from joining the Executive Committee as immediate past Chair under the current Bylaws.

**PROPOSED CHANGES TO BYLAWS**

Based on the foregoing issues, CPA staff is seeking Executive Committee feedback on the following changes:

1. With regard to the Vice Chair position:
   a. the County Supervisor for each county Member Agency automatically serve as Vice Chairs. This is in keeping with the policy objectives and is a continuation of the current structure where the Regular Directors of the County member agencies serve as the Vice Chairs.
   b. Board of Directors authority to remove a Board Officer *without cause* remains. Art. III, Sec. 4.
   c. in the event that a Vice Chair seeks to run for Chair, is otherwise eligible to run in a manner consistent with CPA’s policy objectives, and wins, a process for elections of a Vice Chair among the remaining Regular Directors is specified.

2. With regard to the immediate past Chair, a minor edit is proposed to correct the oversight and allow the immediate past Chair to also be an Alternate Director.
3. Clean up and other minor edits for internal consistency.

**PROCESS**

The draft revisions were presented to the Executive Committee on January 19, 2022. The Executive Committee expressed support for these revisions. Subject to the Board’s feedback, staff proposes to bring a Resolution adopting the new Bylaws at the March 3rd Board meeting.

**PUBLIC NOTICE**

Pursuant to Section 4.11.1, subdivision (d), of the Joint Powers Agreement (“JPA”), CPA must provide 30-day advance notice of its intent to amend the Bylaws. Advance notice for public comment is provided via the Agenda posting and this staff report. The proposed amendments to the Bylaws are provided as Attachment 1 in clean form and Attachment 2 in redline form. Upon adoption, staff will provide written notice of the change and provide a copy of the amended Bylaws to member agencies in compliance with Section 4.11.1. of the JPA.

There shall be no limit to the number of terms a CAC member may serve.

Section 6. CAC Quorum and Voting. Fifty percent (50%) of the seated CAC members shall constitute a quorum for the transaction of business. Action of the CAC on all matters shall require an affirmative vote of a majority of all members who are present at the subject meeting.

To: Clean Power Alliance Board of Directors  
From: Ted Bardacke, Chief Executive Officer  
Subject: Management Report  
Date: February 3, 2022

Utility Bill Forgiveness (CAPP)
Approximately 55,000 residential CPA customers will receive a total of $15.8 million in utility bill relief beginning in early February for past due balances of 60 days or more that were accrued during some of the worst times of the COVID-19 pandemic, March 4, 2020 through June 15, 2021. This relief, called the California Arrearage Payment Program, or CAPP, is being provided by the State of California using money from the 2021 federal American Rescue Plan. It follows the $2 million in internal funds CPA used to provide bill credits to struggling customers during 2020.

Customers receiving a CAPP credit will receive a letter informing them of their credit. The credit will appear as a bill payment on their next monthly bill, accompanied by a bill insert explaining their receipt of the CAPP credit. CPA will promote the application of bill credits through traditional and social media and anticipates that all active residential customers will receive CAPP relief equally 100% of their eligible past due amounts.

Additional funding may be forthcoming that would allow CPA to extend relief to business customers as well. CPA will not initiate collections through the Board-approved Collections Policy until it is determined whether additional CAPP funds will be available.

Board Diversity Survey
CPA staff, in collaboration with the Community Advisory Committee, is developing a Diversity, Equity and Inclusion (DEI) plan that has three pillars:

1. Internal DEI, which focuses on staff diversity and creating a work culture of equity and inclusion.
2. Supplier Diversity, which focuses on expanding the pool of small, local and diverse business enterprises that participate in CPA solicitations for energy and non-energy goods and services, either directly or as subcontractors to our prime contractors. This pillar encompasses compliance with SB255, which mandates all Load Serving Entities to annually report their progress in this area to the California Public Utilities Commission.

3. Program and Community Investments, which focuses on ensuring that CPA’s Customer Programs and other community investments are equitably distributed across the service territory, have an emphasis on customers and communities traditionally underserved by the energy industry, and that CPA communications are language and culturally appropriate.

As part of the DEI effort, the Board will receive a survey in the coming days asking Board members to self-identify across a range of racial, ethnic, gender categories among others. Data will be aggregated and included – though it is not required – in the annual SB255 report CPA files with the CPUC. Participation in the survey is voluntary but encouraged.

**Member Agency Programs Update**

*Power Ready*

The Power Ready Program is a collaboration between CPA and its member agencies, where each of one of CPA’s member agencies can host a clean energy battery storage system at an essential facility. These solar and storage systems will provide resiliency in essential facilities for their communities by serving as clean backup power during PSPS events, natural disasters, or other outages. CPA plans for a third-party developer to install these systems at no direct cost to member agencies.

CPA has developed a master Memorandum of Understanding (MOU) and has been working with member agency staff for feedback after a site suitable for the Power Ready program has been identified. CPA staff continue to follow up with member agencies that have not yet provided MOU feedback and are holding ongoing meetings on final site selection. CPA staff has also started to distribute Member Agency Power Ready packages for Council/Board of Supervisor approval of the MOUs. These Power ready...
packages include the MOU with Exhibits detailing the proposed sites with systems, template staff report, fact sheet, and site narratives. CPA is hoping to work with member agency staff to get approval of these MOU’s no later than the middle of March in preparation of the upcoming Project Developer RFO.

**Electrification Reach Codes**

Planning is underway for CPA’s newest program offering for member agencies – financial and technical support for the development of codes that promote building electrification and the installation of electric vehicle charging infrastructure, often known as “reach codes.” As part of this planning effort, member agency staff are being asked to answer a survey regarding past efforts in this area, any actions planned for the future, and overall interest in working on this issue, which can be highly impactful to both reduce greenhouse gas emissions and improve public health. A copy of the survey is being forwarded to Board members; CPA requests that Board members encourage City staff to respond to the survey.

**Power Response Launch**

On January 27, CPA’s expanded Power Response program launched. Power Response is a demand response program whereby CPA provides financial incentives to customers to shift energy use to mornings, early afternoons, or late at night when clean energy is more abundant. Under Power Response, this shift is enabled by customers allowing CPA to automatically adjust their smart devices – such as thermostat, EV charger, or energy storage system – when an energy savings event occurs. Customers receive both a sign-up payment and event-based payments and free smart thermostats are available for low-income customers.

Demand response initiatives help reduce stress on the electric grid and reduce greenhouse gas emissions. CPA has a goal of signing up over 10,000 customers and 6MW of capacity in the program, a six-fold increase from the pilot program which ran in 2020 and 2021. Under a three-year contract approved by the Board on September 2, 2021, Power Response is administered by Autogrid and includes industry partners such as Google Nest, ecobee, ChargePoint, and Sunnova. Autogrid, the industry partners, and CPA all market the program through various channels – CPA sent out over 88,000 emails
to targeted customers on launch day. More information is available at cleanpoweralliance.org/power-response/

Residential Time of Use Transition
Starting in February and continuing through March, most CPA residential customers will be automatically transitioned from flat/tiered Domestic rate schedules to a Time-of-Use (TOU) rate for both their CPA generation charges and their SCE delivery charges. The transition will support climate, grid reliability, and resilience goals by making electricity more expensive during “peak” 4-9PM hours when power is most expensive and dirtiest.

CPA customers will receive three notices about the transition, sent jointly by SCE and CPA. Most customers received the first of these notices in November, 90 days before the transition, and the second notice in January, 30 days prior to the transition. The third notice, a welcome letter, will arrive at the time of transition – February for most CPA customers in Los Angeles County and March for customers in Ventura County and some west LA County jurisdictions. The notices provide customers with an estimate of their annual electricity costs on the new TOU rates compared to their previous rate, an explanation of the automatic bill protection they will receive for the first 12 months on TOU rates, and directions on how to opt out of the transition if desired. CPA encourages customers to try out the new TOU rates risk-free for up to 12 months; if customers pay more on a TOU plan over this period than they would have paid on their previous plan, they will receive a bill credit for the difference at the end of the period. No action is required, and customers can opt out of the TOU rates at any time by contacting SCE at sce.com/toutransition or 877-287-21400.

Customers who can shift usage away from the peak 4-9PM hours will save money on their electric bills while helping the environment. CPA has been active on social media promoting the transition and in December provided its member agencies with a communications toolkit regarding the TOU transition.

Hawthorne Default Change
On January 25, the Hawthorne City Council voted unanimously to change its CPA default rate to 100% Green beginning October 2022. Hawthorne has 28,498 active customers
and the third highest participation rate - 99.2% - among CPA jurisdictions. This decision brings the number of entities at the 100% Green default level to 19 and puts CPA on track to have over half its customers on the 100% Green rate by the end of 2022.

**Potential CPA Expansion**

Also on January 25, the Hermosa Beach City Council voted unanimously to partner with CPA to undertake a feasibility study this year that could culminate in Hermosa Beach joining CPA by the end of 2022. CPA staff is in conversations with a number of other cities about potentially joining CPA, with results of feasibility studies likely to come before the Board for consideration in September. Customers in any city that joins CPA in 2022 would be eligible to be served by CPA beginning in 2024.

**Earth Day Preparations/EV Charger Incentive Launch**

CPA is aware that some member agencies are beginning to plan for in-person Earth Day events. CPA staff is available to table at these events upon request. Please contact Policy Director and Interim Director of External Affairs Gina Goodhill if you would like CPA participation.

CPA is targeting its own virtual event around or on Earth Day to coincide with the April launch of a $13.2 million EV charger incentive program in Los Angeles County, following the successful 2021 deployment of a similar program in Ventura County. The program is expected to result in the installation of more than 3,000 EV chargers located in publicly accessible location and multifamily buildings.

**Monthly Financial Performance**

CPA closed the month of November with net operating income of $15 million, $10.3 million ahead of budget for the month. Absent a one-time net gain of $7.2 million in the annual Congestion Revenue Rights auction, CPA would have recorded net operating income of $7.8 million or $3.1 million ahead of budget for the month. Through the first five months of the fiscal year, CPA is $52.9 million ahead of budget and has a cash position favorable enough to begin paying back the $30 million loan from LA County, $10 million of which is due at the end of February, without tapping into its $80 million credit line. The most recent
financial dashboard is provided in Attachment 1 and full first half of the FY results will be presented at the March 3 Board meeting.

**Customer Participation Rate**
As of January 25, 2022, CPA’s overall participation rate was 95.6%, down 0.2% from the previous month. CPA had a total of 998,945 active customers, down 770 customers from the previous month. Opt-out levels – 902 accounts in January – are back to steady state levels after an uptick in December as a result of customer activity in response to the annual Joint Rate Comparison (JRC) mailer. New accounts (“move-ins”) just slightly exceeded closed accounts (“move-outs”) by 129 customers in January. Attachment 2 provides participation rate and active accounts by jurisdiction.

Customer activity in the three cities that changed their default rates to 100% Green last October (Agoura Hills, Calabasas, Manhattan Beach) has remained minimal with less than 2% of customers opting-out and less than 1% of customers opting down to Lean Power.

**Customer Service Center Performance**
Incoming calls to CPA’s Customer Service Center returned to normal levels in January at 2,719 calls after a spike to 4,105 in December, also in response to the JRC mailer. In January, 97% of calls were answered within 45 seconds, and average wait time was 10 seconds.

**Contracts Executed in September Under Executive Director Authority**
A list of non-energy contracts executed under the Executive Director’s signing authority is provided in Attachment 3. The list includes all open contracts as well as all contracts, open or completed, executed in the past 12 months.

Note: Numbers may not sum up due to rounding.

CPA recorded operating income of $15 million in November 2021. Operating income was $10.3 million more than the budgeted operating income of $4.7 million. For the year to date, CPA recorded operating income of $22 million, $52.9 million more than the budgeted, year to date operating loss of $30.9 million.

Revenue was lower than budgeted in November due to cooler temperatures in CPA’s service area resulting in lower electricity use by CPA customers. Cost of energy was $12.8 million or 23% lower than budgeted primarily as a result of net sales of $9.8 million of Congestion Revenue Rights (CRRs) in the California Independent System Operator’s (CAISO) annual CRR auction. Net sales of CRRs in the annual auction were $7.2 million higher than budget. Sales of CRRs can occur in the annual or monthly auctions or in the day ahead market. Management view higher CRR sales in the annual auction as largely a timing issue and expect CPA to record lower CRR revenues in 2022 as a result of higher CRR sales in the annual auction. Absent higher CRR sales relative to budget, CPA’s net income would have been $7.8 million, $3.1 million higher than budgeted net income. Cost of energy was also lower than budget due to lower energy use and wholesale energy prices than budgeted, and higher wholesale sales of energy. For the year to date, operating costs were lower than budgeted operating costs primarily because of lower staffing costs resulting from delayed hiring and staff turnover, the performance of services later in the year than budgeted, and the non-utilization of contingencies.

As of November 30, 2021, CPA had $46 million in unrestricted cash and cash equivalents, and $80 million available in its bank line of credit. CPA has a $30 million loan outstanding from LA County.

CPA is in sound financial health and in compliance with its bank and other credit covenants.
